Exotic Animal Technical Rescue Workshop

Hosted by Utah's Hogle Zoo and ASAR Training
Salt Lake City, UT
Tuesday, July 12th
8:00 AM - 5:00 PM MDT

Register now!

Learn more here!

Incidents that involve large exotic animals require special considerations and training. This workshop hosted at Utah's Hogle Zoo will demonstrate low angle rope rescue training with raising and lowering sling applications using HAST XXL equipment. This class is one day, and can focus on one or multiple species applications. This training is limited to zoo or other exotic animal facility partner personnel.

Participants will need to list the agency of affiliation at the time of registration. Hogle Zoo reserves the right to refuse registration to any individual.

Please note that this is an in-person event taking place at Utah's Hogle Zoo.
